

To The Board Members of Parkwood Estates

January.2005

When we we're informed of the up-coming window project I was more than a little nervous. My hats off to you. The selection of the windows and the company installing them were terrific. With the new windows I no longer have drafts or the never ending ice accumulation on the inside of my windows or sills. The quality of the product is well worth the temporary increase to our monthly bill. The company that installed them we're extremely professional, they worked in an organized manner, being as neat as possible and getting the job done as fast as possible. This was an effort well worth the time and expense incurred by all involved.

Thank You & Happy New Year

*Deborah Carneiro*
